01 MESSAGES

MESSAGE FROM THE CHAIRMAN

As we reflect on 2024, it is with a deep sense of pride and purpose that I present this year's annual report for Boğaziçi Ventures. Over the past twelve months, we have navigated an environment marked by persistent global volatility, regional economic pressures, and the rapid acceleration of technological change. Despite these challenges, Boğaziçi Ventures has remained steadfast in its mission: to fuel innovation and create enduring value for our investors and stakeholders. Throughout the year, we witnessed the continued maturation of artificial intelligence as a transformative force—not just within the technology sector, but across every facet of the global economy. From financial technology to biotechnology and sustainable energy, AI-powered disruption is redefining how industries operate and scale.

Agah UĞUR | Chairman

We embraced this shift by deepening our investment in next-generation ventures and enhancing our proprietary AI-driven investment infrastructure. This has not only sharpened our decision-making processes but also positioned us at the forefront of predictive and data-informed portfolio management.

At Boğaziçi Ventures, we believe that resilience and foresight are the cornerstones of long-term success. In 2024, we reinforced our strategic presence in high-growth verticals that we see as foundational to the future economy. Our venture capital funds performed robustly, buoyed by strong interest in technology-led innovation and a growing appetite for sustainable, impact-driven investments.

Beyond capital, our commitment to supporting entrepreneurs has remained a core pillar of our identity. From the earliest stages of ideation to the complexities of scaling, we have worked alongside visionary founders—providing not only financial backing, but also strategic guidance, operational support, and access to global networks. We see this as more than investing; it is about building the architecture of a future-ready economy.

Looking ahead to 2025, we carry forward the lessons of the past year with renewed clarity and determination. We will continue to evolve with the needs of the market, embrace bold ideas, and lead with discipline and integrity. Our focus remains on unlocking value—not just for today, but for the long term—through intelligent investing, a spirit of innovation, and an unwavering commitment to excellence.

On behalf of our entire leadership team, I extend my sincere gratitude to our investors, partners, entrepreneurs, and dedicated team members. Your confidence in our vision propels us forward.

MESSAGE FROM THE CEO

2024 was a year of bold expansion, focused execution, and deep conviction in the transformative power of technology—particularly artificial intelligence. While global uncertainties remained, our belief in the structural shifts underway in the economy guided every decision we made. This year, we didn't just adapt to change; we leaned into it, building a stronger, more agile investment platform prepared to lead in tomorrow's innovation economy. We are proud to report that 2024 marked a period of accelerated activity for Boğaziçi Ventures. We successfully launched three new venture capital funds, each strategically designed to seize opportunities in AI-driven innovation and emerging technologies. These funds have already begun to make a tangible impact, financing a diverse group of startups across Türkiye, Europe, and beyond.

Barış Özistek
Managing Partner | CEO

Our investment teams deployed capital into ventures that are not only scalable but also possess the technical depth and visionary leadership required to shape the industries of the future.

AI remained at the heart of our investment thesis. As models evolve and applications multiply across sectors—from healthtech to enterprise automation—the window for foundational investment widens. We positioned ourselves early in this wave and continue to deepen our exposure through targeted investments and ecosystem partnerships. The goal is clear: to back the companies building tomorrow's infrastructure for intelligence, automation, and digital transformation.

Looking ahead, 2025 promises to be another landmark year. We are preparing to launch additional funds, expanding both our thematic scope and geographic reach. These upcoming vehicles will enable us to stay ahead of the curve while offering investors access to some of the most dynamic innovation frontiers. At the same time, we will continue to refine our fund operations, enhance our data and risk management systems, and maintain the disciplined yet flexible mindset that defines our approach.

What differentiates Boğaziçi Ventures is not just our vision—but our ability to execute across multiple verticals, across funding stages, and across global markets. Our growing track record is the result of strong collaboration between our investment teams, advisors, and network of founders. To every entrepreneur we've partnered with, and every investor who has placed their trust in us, I extend my sincere gratitude.

We enter 2025 with renewed energy, stronger momentum, and an unwavering focus on scaling the companies that will define the next decade of technological innovation.

BV SNAPSHOT: 2024

₺582 Million in Investments

Throughout 2024, we supported innovation by investing in the entrepreneurship ecosystem through all our venture capital investment funds. Beyond providing financial resources to early and growth-stage startups, we contributed to their scaling efforts and expansion into global markets.

₺2.6 Billion in Fund Size

By increasing our investment power and fund size, we continue to allocate more resources to startups. This growth reflects our confidence in the entrepreneurship ecosystem and the success of the startups we support.

₺2.2 Billion Valuation of Our Portfolio Companies

The startups we've invested in have rapidly grown to reach a total valuation of ₺2.2 billion. This figure highlights that the companies we back are capable of competing on a global scale thanks to their strong business models and sustainable growth strategies. Startups supported through our venture capital funds continue to scale quickly and secure a solid place in the investment world.

3 New Funds

With our new funds, we are expanding our investment power and aiming to support more innovative startups. We will continue to create more opportunities for entrepreneurs in the upcoming period. The funds we established in 2024 are:

- Joygame Pre-IPO VCIF
- LT Pre-IPO VCIF
- Istanbul Chamber of Industry VCIF

17 Investments in Diverse Sectors

In 2024, we invested in a total of 17 startups across various sectors, contributing to innovation- and technology-focused projects. These investments will help accelerate the growth journeys of startups and boost their competitiveness in global markets.

Startups we invested in:

Retter, Artiwise, Vanirtech, Onenewone, Feddback4e, Buddy Performance, Enhencer, Magfi, Lucid11, Arvis Games, Lokum Games, Fiber Games, Mafia Games, Joygame, Hiwell, Liquidity Trading, Mükellef.

BV SNAPSHOT: 2024

2000+ Startups

More than 2,000 startups from across Turkey applied for investment. We worked meticulously to analyze innovative and promising projects in detail and include the best ones in our portfolio.

7 Investments in AI & SaaS

Artificial intelligence and cloud-based software solutions are at the heart of today's digital transformation. Through our investments in this field, we supported impactful projects both locally and globally.

3 Investments in Fintech & Payment Systems

Our investments in financial technologies supported startups working to make digital payment systems more accessible, secure, and innovative. We continue to contribute to the industry through projects shaping the future of finance.

1 Investment in Health Technologies

With our investment in health technologies, we supported innovative solutions that ease access to healthcare services and improve diagnosis and treatment processes. Our efforts to increase technology's impact on the healthcare sector will continue.

5 Investments in Gaming

With our investments in the gaming sector, we contributed to the development of entertainment and security technologies. These investments supported next-generation gaming startups and solutions enhancing digital safety.

1 Investment in Edtech

Through our investment in educational technologies, we contributed to making digital learning solutions more widespread and effective. We will continue to support projects that make education more accessible through innovative approaches.

02 COMPANY OUTLOOK

2.1 VALUE WE CREATE

As technology entrepreneurs, our biggest goal is to invest in innovative technology startups and help them achieve their most extreme dreams while contributing to ecosystem development and sharing proven success stories and experiences.

In addition to the necessary financing, we support the perfect formation of products/services and enable rapid growth on a global scale with our knowledge, sectoral expertise, wide partner and business network. We have regular monthly management meetings with assigned GP and portfolio companies' founders to support their operations in every way we can, such as global expansion, localization and building networks in the new markets, follow-on fundraisings... We collect monthly reports and give feedback according to our analysis. In order to give the best mentorship about technology company management, growth hacking, behavioral science, innovation pursuing, innovative business models and building key performance indicators, we held numerous meetings throughout 2023.

We are working to expand the ecosystem and create value by introducing the promising Turkish entrepreneurship ecosystem to our global network through international entrepreneur events and juries across Europe, MENA (especially GCC countries), Asia and the United States. We introduce our portfolio companies to over a vast network of investors/corporates which are both local and global.

Due to expanding ecosystem knowledge and transferring it to the new generations, we recruit and train fellows from different backgrounds. We cultivate the potential talents not only for Boğaziçi Ventures talent pool but for the whole entrepreneurship and startup ecosystem in Türkiye to build long-term impact and skills.

2.2 VISION & MISSION

We establish funds that invest in technology or are managed with technology.

We truly support disruptive innovation.
We believe in the power of experience and sharing.
We aim to grow together with the ecosystem we are in while creating sustainable economic value for Türkiye's entrepreneurial ecosystem and investors with our investments.

VISION

To be the prominent and dedicated investment group on technology driven investment instruments and management.

MISSION

Whilst providing top-notch support to entrepreneurs and visionaries to deliver added value to the ecosystem, generates return for investors and stakeholders.

2.3 INVESTMENT THESIS

Boğazici Ventures' goal is to create long-term economic value for its stakeholders by investing financial, technical, and social capital in technology startups focused on the theme of disruptive innovation. We invest in companies at various stages of development ranging from seed to pre-IPO and publicly traded as long as they are aimed at disruptive innovation. Our investments are aimed at innovative businesses with global scalability, unparalleled growth potential, and the ability to disrupt the medium to long term through their technology or business model.

With the experience of our founders and team and the strength of their proven track record, we find promising projects. We invest in startups from the Seed stage, where the market need is at the highest level, to the pre-IPO stage.

We prioritize high financial returns by investing with reasonable considerations.

In addition to our financial investment, we ensure that our portfolio companies are supported in management, strategy and different areas with our team.

BV Portföy reflects the experience and know-how of Boğaziçi Ventures in the mutual funds universe. Apparent experience in gaming and technology industries, funds managed by BV Portföy enjoy a disruptive and distinguished investment universe. Contrary to conventional fund management approach, BV Portföy applies a "Venture Capital" outlook on equity markets trying to pinpoint companies that will shape the future in the technology sector.

BV Portföy designed an investment process on mutual fund management to pinpoint disruptive companies that will offer products and services growing exponentially in the next 5 to 10 years. The objective is to invest in publicly traded companies at the right valuation and at the right time. It is believed this approach will provide greater benefit to investors rather than tracking well-known indices and mimicking their portfolios. Strategic and tactical portfolio management will dominate the management style of those funds. Balanced and hedge funds of BV Portföy will be steering to generate return in the medium to long term investment horizon.

03 ABOUT US

3.1 CORPORATE STRUCTURE

Boğaziçi Ventures (BV Teknoloji A.Ş.), BV Portföy, and BV Dijital are group companies operating under the umbrella of Boğaziçi Ventures. **Boğaziçi Ventures** aims to provide high financial returns to its investors by investing in technology and disruptive innovations. **BV Portföy** manages technology-focused equity and venture capital mutual funds, while **BV Dijital** offers crypto asset management services. Boğaziçi Ventures seeks to add value to the ecosystem and achieve sustainable growth by combining traditional capital with technological ventures.

The vision of Boğaziçi Ventures is to create value in the ecosystem and provide unparalleled returns to its investors by investing in the future through innovative financing methods. By focusing on innovative projects, Boğaziçi Ventures aims to transform traditional investment management approaches and achieve sustainable growth through technology-focused investments. In line with this vision, group companies like BV Portföy and BV Dijital strive to be leaders in the fields of technology and innovation and offer the best services to their investors. Boğaziçi Ventures continues to work towards creating long-term value by forming strategic partnerships with its investors.

3.1.1 BOĞAZIÇI VENTURES, BV TEKNOLOJİ A.Ş.

“

Boğaziçi Ventures is the leading alternative asset management company in Turkey, offering funds, direct investments and tailored investment opportunities.

We're not traditional investment managers.
Instead of benchmarking the history, we're all focused
on innovation and innovative finance..
Our priority is investing in the future to add value to our ecosystem
and create unparalleled returns to our investors.

”

Boğaziçi Ventures (BV) is Turkey's leading alternative asset management company, offering funds, direct investments, and tailored investment opportunities. Unlike traditional investment managers, Boğaziçi Ventures focuses on innovation and innovative finance, prioritizing future-oriented investments that add value to the ecosystem and deliver unparalleled returns to investors.

Founded in 2015, Boğaziçi Ventures has actively invested in Turkish technology startups and supported the entrepreneurship ecosystem in Türkiye. Boğaziçi Ventures operates as Türkiye's foremost alternative asset management company, investing exclusively in technology and disruptive innovations through its group companies. These group companies, including BV Portföy and BV Dijital, aim to create value through projects that focus on games, technology, innovation, fintech, and artificial intelligence, rather than following traditional investment management approaches.

Boğaziçi Ventures's founders are technology entrepreneurs dedicated to investing in and supporting technology startups on their journey to realize their most ambitious dreams. Boğaziçi Ventures combines the power and experience of traditional capital with disruptive and talented technology ventures, thereby positively impacting the ecosystem and fostering sustainable growth.

Boğaziçi Ventures plays a crucial role in managing long-term relationships between its global network of investors and Turkish entrepreneurs. With a “smart-money” mindset, Boğaziçi Ventures acts as a strategic and general partner to its investors. Leveraging the extensive knowledge and experience of its team, Boğaziçi Ventures mentors its portfolio companies on their path to success.

Boğaziçi Ventures manages assets through three major funds, all focused on technology. Each fund has its own targeted technology vertical, investment strategy, and dedicated management team. Through these funds, investors can connect with technology companies and benefit from the high financial returns of the tech industry. Boğaziçi Ventures is committed to investing in tech ventures that challenge traditional industries and develop revolutionary technologies. By engaging investors in these fields, Boğaziçi Ventures aims to ensure the robust growth and survival of the regional ecosystem. This approach, which Boğaziçi Ventures terms 'investing in disruptive innovation,' focuses on growth-stage investments where market demand is highest, supporting the development of key talent and creating value within the startup ecosystem.

In essence, Boğaziçi Ventures operates as an alternative asset manager by leveraging its in-house venture capital and crypto fund expertise, and through the equity fund management conducted via its wholly-owned subsidiary, BV Portföy. This integrated approach ensures that Boğaziçi Ventures (BV) remains at the forefront of innovation, delivering significant returns while fostering a vibrant technological ecosystem.

3.1.2 BV PORTFÖY A.Ş.

Since its establishment in 2022, BV Portföy Yönetimi A.Ş. (BV Portföy) has maintained a clear strategic objective: to position itself as a leading asset management company specializing in equity and venture capital funds focused on high-growth, innovation-driven sectors. The company continues to advance toward this objective with determination and a disciplined approach, strengthening its presence within the capital markets ecosystem.

2024: A Year of Growth and Resilience

The year 2024 was defined by global economic uncertainty, heightened geopolitical risks, and volatility across financial markets. At the same time, it marked a turning point for the investment world, driven by accelerated digitalization and the growing adoption of AI-powered financial solutions. At BV Portföy, we anticipated this transformation early on and responded with solid risk management and innovative investment strategies, enabling us to deliver stable returns to our investors despite challenging market conditions.

Throughout the year, we observed a significant increase in demand for alternative investment assets. In response, we further diversified our portfolio management strategies, placing greater emphasis on technology-driven investments and achieving balanced growth across both traditional and innovative asset classes. Closely monitoring both domestic and global economic indicators, we identified and seized the most relevant opportunities to meet the evolving needs of our investors.

By the end of 2024, we had achieved substantial growth, expanding our portfolio to a total size of TRY 4 billion, nearly tripling our assets under management compared to the previous year. This included TRY 1.4 billion across 10 mutual funds and TRY 2.6 billion in five venture capital investment funds. This remarkable progress reflects not only the trust our investors place in us but also the effectiveness of our strategic approach and commitment to long-term value creation.

2025 Outlook: Investing in the Future

As we look ahead to 2025, we anticipate continued global volatility and economic uncertainty. However, we believe that the accelerating pace of digital transformation and the widespread adoption of AI-based financial solutions will unlock new opportunities in the investment landscape. Our focus will be on enhancing our data-driven decision-making by further developing our proprietary AI-powered analysis infrastructure, enabling more dynamic and predictive investment models.

In the coming year, we will deepen our presence in high-growth sectors such as technology, biotechnology, financial technology, and sustainable energy—industries we believe represent the backbone of the future economy. As financial technologies evolve, we are committed to integrating innovative solutions into our investment processes, reinforcing our competitive edge and generating meaningful value for our clients.

Supporting the entrepreneurial ecosystem will remain a core priority for BV Portföy. We aim to empower innovative ideas not only at the inception stage but also throughout the growth and scaling phases, providing both capital and strategic support to help entrepreneurs build sustainable and impactful businesses. In doing so, we are not only contributing to financial success but also to the development of a dynamic, value-creating economic structure.

As we step into 2025, we do so with a clear vision and unwavering purpose: to deliver enduring value to our investors through portfolio management that is not only innovative and insightful, but also grounded in trust and long-term thinking. Strengthened by the continued confidence of our clients, we are ready to embrace the challenges and opportunities of the year ahead—with discipline, clarity, and a bold commitment to shaping the future of investment.

3.1.3 BV DİJİTAL A.Ş.

BV Dijital is one of the portfolio companies of Boğaziçi Ventures which started its operations in 2019 as the one and only digital asset management service in our country was founded to guide and contribute to technological transformation in rapidly developing fields such as new internet infrastructure Web 3.0, Metaverse, NFT, decentralized finance, and cryptocurrency markets. BV Crypto, has always carried out its activities by adopting the principle of maximum security-optimum allocation by following various trends in the market. In line with this, performing security controls, especially the sustainability of new technologies, and informing the investors in the most accurate way is one of the main duties and principles of BV Crypto.

BV Crypto, which fully complies with the guidelines and regulations on crypto asset service providers published by official institutions and organizations, particularly the Financial Crimes Investigation Board (MASAK) in Türkiye, and closely follows the developments in this field, sets an example in its field as it offers the first digital asset management service in our country. The cryptocurrency law was released in July, 2024. It was a significant milestone. BV Crypto applied to Capital Markets Board and will shape its future strategies in accordance with legislation as it has done in the past. We eagerly await the updates that will come in the year.

In 2024, although some powerful signs of recovery has been emerged and some currencies showed positive performance within the year, investments and liquidity have continued being respectively low due to the global economic incidents and constraints. On the other hand BTC ETF and most importantly 2024 BTC halving period was seen as basic drivers of cryptocurrency markets in 2024. The continuation of BV Crypto's activities during this challenging period has been a result of the maximum security and optimum allocation principle, and the management principle based on long-term goals has also proven the resilience and manageability of BV Crypto's products in such times.

3.1.4 SERVICES

I. Fund Management

Boğaziçi Ventures, establishes and manages funds at different stages and with different objectives.

- Idea stage (Pre-seed)
- Growth (Seed – Series A)

For further information about the management team, please visit [our website](#).

Boğaziçi Ventures believes in the importance of inclusion and diversity. Our team members are all from different backgrounds and have deep expertise in their respective fields.

04 MARKET OUTLOOK

Thanks to the talented and aspiring founders, the Turkish tech ecosystem is in a very promising state. Strong inclination towards tech entrepreneurship from former senior executives of well-developed and conventional industry companies still continued in 2024. The Turkish tech ecosystem will remain as one of the most promising domains in the upcoming years due to the competitive labor force & skilled talent, strong entrepreneurial community and government support & incentives for the ecosystem. Market outlook on our targeted focus investment verticals are presented briefly within this section.

4.1 GAMING

The global gaming market, valued at USD 274.63 billion in 2024, is expected to reach USD 721.77 billion by 2034, growing at a compound annual growth rate (CAGR) of 10.15% during the forecast period (2024–2034). In the fourth quarter of 2024, a total of USD 679.5 million was invested globally in the gaming sector. Within the Turkish ecosystem, over USD 121 million was invested across 7 different gaming-related deals during the same quarter.

4.2 FINTECH

The fintech market, valued at USD 226.71 billion in 2024, is projected to reach USD 1,071.27 billion by 2034, growing at a compound annual growth rate (CAGR) of 16.8%. Global fintech investments declined by 20% in 2024, with fintech companies worldwide raising a total of USD 43.5 billion. In the Turkish ecosystem, there were 6 fintech-related investments and acquisitions in the fourth quarter of 2024.

4.3 RETAIL

The retail technologies market is expected to grow from USD 32.68 billion in 2024 to USD 58.93 billion by 2032, at a compound annual growth rate (CAGR) of 7.65% over the forecast period (2023–2030).

4.4 HEALTH TECH

The global digital health market was estimated to be worth USD 180.2 billion in 2023 and is projected to reach USD 549.7 billion by 2028, growing at a compound annual growth rate (CAGR) of 25.0% between 2023 and 2028. Throughout 2024, a total of USD 14.8 billion was invested in the health technologies sector. In Turkey's ecosystem, 58 healthtech investment deals were recorded in 2024. The largest investment took place in the second quarter, with Hiwell receiving USD 3.5 million.

4.5 EDUTECH

The education technology (EdTech) market is expected to reach approximately USD 193.74 billion in 2024 and grow at a compound annual growth rate (CAGR) of around 20.83% from 2025 to 2033, reaching USD 1,063 billion by 2033. In 2024, 24 EdTech investment deals were recorded within the Turkish ecosystem.

4.6 HR TECH

The global Human Resources (HR) technology market is expected to reach USD 36.0 billion in 2024 and grow at a compound annual growth rate (CAGR) of 7.6% between 2025 and 2033, reaching USD 69.6 billion by 2033. In 2024, 14 HR tech investment deals were recorded within the Turkish ecosystem.

4.7 SMART MOBILITY

The global smart energy market is valued at USD 177.71 billion in 2024 and is projected to reach USD 482.31 billion by 2034, growing at a compound annual growth rate (CAGR) of 10.50%.

4.8 SMART ENERGY

The global smart mobility market is valued at USD 43.46 billion in 2024 and is projected to reach USD 194.13 billion by 2032, growing at a compound annual growth rate (CAGR) of 20.8%. U.S.-based Waymo secured a USD 5.6 billion investment.

05 VENTURE CAPITAL INVESTMENT FUNDS

5.1 BV GLOBAL FUND

BV Global is the first fund established by Boğaziçi Ventures, launched in 2015 as a friends & family fund. The fund invests in early-stage startups, ranging from seed to Series A, with a strong global outlook. Its primary focus areas include fintech, retail tech, esports & gaming technologies, health tech, and Web3, particularly within the MENA Region and Türkiye.

MAFIA GAMES

Mafia Games (HCG Oyun ve Teknoloji Girişim A.Ş.) is a game development studio founded in Istanbul in 2020, focused on creating innovative games for mobile and PC platforms. Currently preparing for the global launch of its fashion and style-themed mobile title Dress to Impress – Style Game, the company is also working on two PC projects for Steam: the action-oriented Win or Die and the puzzle-based Fox Hole. Embracing a hybrid-casual approach, Mafia Games blends elements of luck, strategy, and entertainment, with the ambition of establishing a global footprint in the Turkish gaming industry.

QUOTATION

At Mafia Games, we have one clear goal: fun begins the moment you touch the screen. Whether it's a fashion runway or a chaotic tabletop PvP battle, we aim to bring a big smile to our players' faces with every game we create.

TEAM

Team:

7 (3 Visual Designers - 3 Game Developers - 1 QA Tester)

PRODUCTS

1. Dress to Impress – Style Game

- Platform: Mobile (iOS & Android)
- Genre: Fashion & Style
- Features: Allows players to express their style by choosing different outfits and accessories, and participate in various events and competitions.
- Status: In final testing phase (monetization and gameplay) before global launch.

2. Win or Die

- Platform: PC (Steam)
- Genre: Party & PvP, board game-inspired, 3D
- Features: A modern twist on classic board game mechanics, offering fast-paced, competitive, and entertaining gameplay. Includes multiplayer PvP modes and party features.
- Status: In development; release date to be announced.

3. Fox Hole

- Platform: PC (Steam)
- Genre: Puzzle
- Features: Strategic gameplay with innovative puzzle mechanics and varying levels of difficulty. A fun yet brain-teasing experience.
- Status: Planned for release within the next few months; official launch date coming soon.

HIWELL

Hiwell is a leading technology startup operating in the field of digital health and mental wellbeing, bringing together clients and consultants via a secure marketplace platform.

QUOTATION

2024 was the year we aimed for globalization, and now 40% of our monthly revenue comes from countries outside of Turkey. In 2025, our focus is on launching new products. We will continue working to make therapy and healthy living accessible and sustainable for everyone.

Team:

37 people (Management: 1 - Technology: 8 - Product: 3 - Finance & Accounting: 4 - Marketing: 7 - Human Resources: 1 - Operations: 12 - Office Staff: 1)

PRODUCTS

Hiwell online therapy application operates by having users respond to questions that help us understand their expectations and needs. Based on their answers, they can review and choose therapists available for therapy sessions. Users also have the option to conduct a free 15-minute introductory meeting with the selected therapists. After selecting the most suitable session package for themselves and making the purchase, they can commence their therapy sessions.

TOON METAL GAMES

Toon Metal Games was founded in Istanbul in 2021 by an experienced team in the gaming and software industry, with the goal of developing casual and hybrid casual mobile games, along with a multiplayer server infrastructure to support them. What started with three co-founders has now grown into a team of 11 people. In just two years, the company successfully launched four games.

QUOTATION

After achieving 1 million downloads with our game Perfect Beauty Salon, our next milestone is to scale the game to 5 million and then to 10 million downloads. Beyond Perfect Beauty Salon, we are also working on a brand-new game in a completely different genre for 2025. Our goal is to bring our second successful product to soft launch by the end of the year.

LOKUM GAMES

Lokum Games team, led by co-founder and CTO Özgür Soner, has been developing games together for over 10 years. Following the success of the Zula brand created very successfully in the TR and MENA regions, they have utilized their experience in the "Shooter" segment to develop a new generation Mobile Shooter Game called "Tactical Strike" using the Lokum Mobile Shooter Platform. This platform has been brought to life through 4 years of work and a \$4 million investment.

QUOTATION

We have developed a Mobile MMO FPS game that we believe will meet international standards. Leveraging the experience we gained, especially in the Turkey and MENA regions with the Zula brand, we aim to offer our new game to the liking of global gamers. Thanks to the investment round led by Boğaziçi Ventures and APY, we will initiate our Beta Launch process in Q1 2024 with a strong launch plan. We hope that our collaboration will continue to grow in the coming period, and Lokum Games will position itself as the desired game studio on a global scale in the Mobile Shooter segment.

PRODUCTS

Tactical Strike is designed as a game targeting a wide audience worldwide, aimed at both Western and Asian markets, and it is the first game project to be implemented on the 'Lokum Mobile Shooter Platform.' The game is designed to appeal to female players as well. The revenue model of the game consists of in-app purchases (IAP) and advertisements. In Tactical Strike, there are multiple currencies available, including Tactical Strike Credits that can be purchased with real money. The game features over 100 unique weapons, various weapon upgrades, 20 different characters, and over 10,000 customization options. Extensive customization options are available for characters and weapons. Additionally, the game includes a Battle Pass system featuring missions, contracts, and achievements.

ARTIWISE

Artiwise is committed to achieving sustainable customer satisfaction through Artificial Intelligence. With its Customer Experience Management (CXM) Platform, Artiwise aspires to become the world's leading Customer Experience Management solution.

QUOTATION

Meeting BV at the right time was a turning point for us. Their alignment with our vision made it easy to embark on this journey together. Their investment not only provided the support we needed to accelerate our growth and elevate our vision, but also went beyond just financial aid. Their collaborative support has been key to shaping our strategy and driving our vision forward. This partnership—fueled by close interaction and regular follow-ups—has truly accelerated our journey. BV brought strategic value and a shared vision to Artiwise.

- **Magfi App Center:** The discovery engine of Telegram. It helps users explore new communities, miniApps, and bots, while enabling creators to expand their visibility and audience reach.
- **Magfi Marketplace:** A first-of-its-kind platform where Telegram-based assets — communities, miniApps, bots — can be listed, valued, and acquired, transforming content into a tradable digital asset class.

5.3 SYNERGY FUND

Boğaziçi Ventures Synergy Venture Capital Investment Fund (BSG) focuses on a co-investment strategy alongside strong local and international investors. At the same time, the fund provides a solution to the illiquidity challenge of long-term venture capital funds through a structured approach that includes regular dividend distributions. Through its secondary investment approach, the fund enables partial exits for startup founders while offering investors.

Sinerji VCIF operates as a long-term multi-asset fund. With no minimum investment requirement and a one-time capital call structure, the fund is particularly well-suited for Technopark companies and R&D centers. Additionally, its secondary investment approach and annual dividend payouts make it a compelling alternative for corporate investors looking to benefit from the tax advantages offered by venture capital investment funds.

In 2024, Sinerji Venture Capital Investment Fund (Sinerji GSYF) made investments in two startups: Hiwell in the digital health sector and Mafia Games in the gaming industry. Additionally, the fund invested in BV Growth I, Joygame, and Liquidity Trading funds, bringing the total investment amount to TRY 20 million.

Mafia Games (HCG Oyun ve Teknoloji Girişim A.Ş.) is a game development studio founded in Istanbul in 2020, focused on creating innovative games for mobile and PC platforms. Currently preparing for the global launch of its fashion and style-themed mobile title Dress to Impress – Style Game, the company is also working on two PC projects for Steam: the action-oriented Win or Die and the puzzle-based Fox Hole. Embracing a hybrid-casual approach, Mafia Games blends elements of luck, strategy, and entertainment, with the ambition of establishing a global footprint in the Turkish gaming industry.

QUOTATION

At Mafia Games, we have one clear goal: fun begins the moment you touch the screen. Whether it's a fashion runway or a chaotic tabletop PvP battle, we aim to bring a big smile to our players' faces with every game we create.

PRODUCTS

1. Dress to Impress – Style Game

- Platform: Mobile (iOS & Android)
- Genre: Fashion & Style
- Features: Allows players to express their style by choosing different outfits and accessories, and participate in various events and competitions.
- Status: In final testing phase (monetization and gameplay) before global launch.

2. Win or Die

- Platform: PC (Steam)
- Genre: Party & PvP, board game-inspired, 3D
- Features: A modern twist on classic board game mechanics, offering fast-paced, competitive, and entertaining gameplay. Includes multiplayer PvP modes and party features.
- Status: In development; release date to be announced.

3. Fox Hole

- Platform: PC (Steam)
- Genre: Puzzle
- Features: Strategic gameplay with innovative puzzle mechanics and varying levels of difficulty. A fun yet brain-teasing experience.
- Status: Planned for release within the next few months; official launch date coming soon.

5.4 JOYGAME PRE-IPO FUND

Joygame Pre-IPO Venture Capital Investment Fund (VCIF) was launched to back Turkey's first publicly listed gaming company and only local game publisher. The fund targets the gaming sector within the creative industries, supporting Joygame's development of PC, mobile, and Web3 games, as well as digital solutions for the broader gaming ecosystem.

As one of Turkey's first gaming companies to establish an in-house AI department, Joygame leverages AI to streamline visual design, 3D modeling, video production, and data analytics —enhancing both speed and cost-efficiency.

With 14 studios and 180+ global experts, Joygame is growing rapidly, bolstered by a strategic partnership with Netmarble (USD 3.9B revenue). Upcoming titles like Desert Warrior, Basketball Brawl, and Deck Dash aim to expand its already strong user base, which includes over 100M PC gamers, 30M mobile downloads, and 4M MAUs.

In 2024, Joygame reached USD 20M in revenue with a 30% EBITDA margin, up from USD 14.5M in 2023. With renewed market momentum expected in 2025, the company forecasts USD 30M revenue and USD 9M EBITDA. The Joygame Pre-IPO Fund (JOY) delivered an impressive return of +101.97% between March 1, 2024, and December 31, 2024. This performance reflects more than a doubling in value within a 10-month period, marking the fund as one of the top performers in its category during the year.

With 15 years of experience and over 50 titles, Joygame is moving swiftly toward Turkey's first gaming IPO. The Pre-IPO VCIF offers early access to a profitable, fast-scaling gaming company with strong fundamentals and global potential.

5.4 LIQUIDITY TRADING PRE-IPO FUND

In 2024, reaffirming our confidence and interest in financial technologies, we invested in **Liquidity Trading (LT)**, Turkey's leading company in High-Frequency Trading (HFT) and Quantitative Trading.

With this investment, we launched the **LT Pre-IPO Venture Capital Investment Fund (VCIF)** to accelerate the company's expansion into Europe and ultimately guide it toward an Initial Public Offering (IPO).

This fund offers investors the opportunity to participate in the rapidly growing fintech sector at a strategic point in time, providing access to a fintech company with strong medium-term growth potential. **LT Pre-IPO VCIF** aims to fast-track Liquidity Trading's global expansion and IPO journey, while also focusing on minimizing capital risk for investors through quantitative funds.

The Liquidity Trading Pre-IPO Fund (BVS) generated a return of +17.65% between May 21, 2024, and December 31, 2024. This solid performance over a seven-month period reflects the fund's steady growth trajectory during its initial phase of deployment.

Open exclusively to **qualified investors as defined by regulation**, the fund stands out as a powerful investment vehicle designed to deliver **maximum returns**.

5.5 İSTANBUL CHAMBER OF INDUSTRY FUND

İstanbul Chamber of Industry Venture Capital Investment Fund's (SOF) investment strategy is rooted in empowering innovative startups that will shape the future of Turkish industry. Powered by the İstanbul Chamber of Industry (İSO)—one of the most influential industrial institutions in Turkey—our fund serves as a bridge between the country's established industrial power and its growing entrepreneurial ecosystem.

İstanbul Chamber of Industry Venture Capital Investment Fund (SOF) strategically invests in early and growth-stage startups that are pioneering technologies in digitalization, sustainability, and green transformation. By facilitating the adoption of innovation within traditional industries, we aim to accelerate Turkey's industrial modernization and global competitiveness. Our investments are designed not only to generate financial returns, but also to create long-term value by supporting ventures that contribute to environmental sustainability and technological advancement.

A unique aspect of our fund is its mission-driven approach. A portion of the fund's performance-based earnings is transferred to the İstanbul Chamber of Industry Foundation to support educational initiatives, ensuring that our success translates into broad societal impact.

İstanbul Chamber of Industry Venture Capital Investment Fund (SOF) offers investors a rare opportunity to be part of a fund backed by Turkey's industrial backbone, with access to promising startups, strategic industrial partnerships, and a clear focus on national development priorities. With İstanbul Chamber of Industry's deep-rooted network and experience, our fund plays a vital role in nurturing Turkey's innovation economy and shaping a more resilient and forward-looking industrial landscape.

06 FUTURE FUNDS

6.1 BV Growth II

6.2 Great Pre - IPO VCIF

GREAT Pre-IPO VCIF is a venture capital investment fund focused on Turkey's rapidly growing food, beverage, entertainment, and hospitality sectors. The fund invests in hotel, restaurant, and entertainment businesses with strong brand recognition, aiming to support their growth through financial discipline while preparing them for the public offering process.

With its strategic location and high tourism potential, Turkey presents significant opportunities, and this fund seeks to deliver strong returns to investors through technology-driven business models and consolidation strategies. The ultimate goal of the fund is to scale the invested businesses and take them public within five years.

6.3 Farklabs Electrification Pre-IPO VCIF

The fund will invest in companies that develop, manufacture, and market electric vehicles and related technologies such as software, hardware, artificial intelligence, and sensor systems. Priority will be given to post-early-stage companies with high growth potential and a clear path toward an initial public offering (IPO). However, early-stage companies operating in these areas will also be considered.

The fund's core investment sectors include automotive, transportation technologies, artificial intelligence, manufacturing technologies, and software-hardware services. Investments will be made through various instruments such as capital injection, debt-equity financing, equity transfer, and strategic advisory.

While the fund primarily focuses on investments within Turkey that support the electric vehicle ecosystem, it may also allocate capital to opportunities in other relevant sectors.

07 CORPORATE ACTIVITIES

Boğaziçi Ventures had a dynamic year, marked by significant corporate projects with stakeholders and impactful social initiatives aimed at fostering knowledge sharing within the ecosystem. Our efforts concentrated on three main areas: spreading our accumulated knowledge through educational initiatives, generating a positive impact on the ecosystem, and ensuring our communications remain transparent and accessible to the public. In this section, we present a comprehensive overview of our key events over the past year, each carefully selected to demonstrate the effectiveness and impact of our initiatives.

At **Boğaziçi Ventures**, we are committed to strengthening the **artificial intelligence ecosystem** and shaping the future of technology. In line with this vision, we organized **two major BV AI Summits in 2024**, both of which made a significant impact by bringing together **industry experts, entrepreneurs, investors, and technology leaders**.

Our **first event, BV AI Summit 2024**, took place in **February 2024**, attracting over **1,000 participants** and featuring **30 expert speakers**. The summit explored the transformative power of AI across industries and daily life. Held in partnership with **AWS, Hiwell, Commencis, and Skyloop Cloud** as main sponsors, the event featured keynote addresses from **Deputy Minister of Industry and Technology Zekeriya Coştu**, who shared Turkey's **National AI Strategy**, and **Boğaziçi Ventures Chairman Agah Uğur**, along with **DEİK President Nail Olpak**, who discussed the global opportunities AI presents.

Insightful panels included speakers such as **Burak Aydın (AWS Turkey General Manager)**, **Cenk Bayrakdar (Revo Capital)**, and **YJ Gahng (Unity Product Lead for AI/ML Tools)**. Leading companies such as **Trendyol, Insider, Retter, Hiwell, and Cerebrum Tech** shared how AI is reshaping their sectors. Additionally, companies like **Leonardo.AI, Commencis, and Skyloop Cloud** hosted hands-on **AI workshops**, offering attendees immersive learning experiences.

Our **second flagship event, BV AI Summit Istanbul 2024**, was held on **December 20, 2024**, at **42Venue**, under the theme **"Beyond The Visible"**. Exceeding all expectations with more than **1,200 attendees**, the summit welcomed esteemed speakers including **Faruk Eczacıbaşı (Vice Chairman of Eczacıbaşı Holding and President of the Turkish Informatics Foundation)**, who emphasized the importance of leadership and innovation in digital transformation. **Dr. Erdem Erkul (DEİK Board Member)** and **Barış Özistek (CEO, Boğaziçi Ventures)** evaluated the global impact of AI advancements.

The event was proudly sponsored by **Monster** and **Intel**, with additional support from **Logosoft, Google Cloud, Pasha Bank, Hiwell, and OneNewOne (ONO)**. During the summit, **Erdal Bahçıvan (President of Istanbul Chamber of Industry)** and **Kenan Çolpan (Managing Partner, Boğaziçi Ventures)** discussed the integration of AI into the industrial sector. Prominent organizations such as **Microsoft, Google Cloud, and İş Bankası AI Startup Factory** shed light on AI's growing role in business.

A key highlight was the **Startups, Investors, and Partners Networking Lounge**, which enabled meaningful new collaborations between investors and startups.

More Than Just Summits

The **BV AI Summit 2024 events** served not only as platforms for knowledge exchange, but also as catalysts for building the future of the AI ecosystem. By uniting investors and technology leaders, we helped accelerate the growth of innovative solutions and foster strategic partnerships.

BV AI Summit Istanbul 2024 stood out as a major success in raising awareness about artificial intelligence, facilitating collaboration, and sharing groundbreaking ideas. With its powerful speaker lineup, insightful panels, and invaluable networking opportunities, the summit became a must-attend gathering for AI leaders.

We would like to extend our sincere thanks to all our **participants, speakers, sponsors, and supporters** for the tremendous interest and enthusiasm shown throughout the year.

We extend our heartfelt thanks to all participants, speakers, sponsors, and supporters for their tremendous interest in our event.
